NEW

THERMOLAC™ GA

Ref. 1612 & 1613

Isothermal drinkers GREAT ACCESS A higher comfort for modern animals

The THERMOLAC™ range is diversifying with the arrival of these two new models, featuring much larger water accesses and practical developments:

- ▶ Effective thermal insulation proven for almost 35 years to withstand freezing temperatures down to -30°C and dispense cool, algae-free water in summer.
- ▶ One to two new insulated hatches provide 32% greater access than the THERMOLAC™ GV sphere.
- ▶ With these very easy-to-push hatches, THERMOLAC™ GAs are suitable for (very) large cattle, horses and youngsters.
- ▶ Other new features include a lid now mounted on reversible hinges, and a drain with downward-channelling overflow for easy cleaning.
- ▶ Like other THERMOLAC™ drinkers, these are made entirely in France from double-walled foamed HDPE and come with a 5-year guarantee against manufacturing defects.
- ▶ Patent pending.

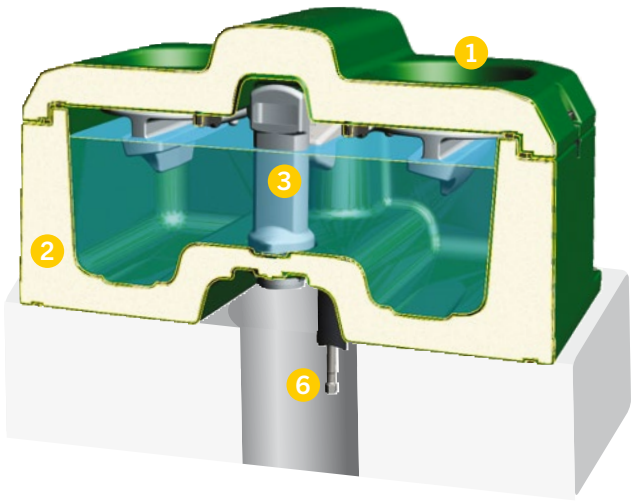

NEW

THERMOLAC™ GA

Ref. 1612 & 1613

Great Access isothermal drinkers

- 1 Patented, easy-to-push floating insulation hatches with extra-wide water access (290x230 mm = 32% larger than sphere) for animal comfort.
- 2 Optimum thermal insulation effective down to -30°C without electricity. HDPE filled with insulating foam.
- 3 New additional Ø100 mm piped drain with overflow. 1/4 turn opening/closing. Side drains remain.
- 4 Insulated lid mounted on reversible hinges for opening in either direction depending on installation.
- 5 34 l/min valve (at 3 bar). Water level adjustable without tools. Locking pin (for cleaning).
- 6 Stainless steel braid, insulating sleeve and floor insulation gaskets supplied.
- 7 "Fishmouth" slots for mounting recommended on a concrete base 20 to 35 cm high.

THERMOLAC™ : a success story for almost 35 years!

THERMOLAC™ 40 and 75B, THERMOLAC™ 40, 75 and 180 GV.
